

Insulation requirements:

- Homes must be built with an electric heating system, central air conditioning or heat pump serving 80 percent of the floor area (ducted unitary cooling equipment).
- We recommend insulating to highest R-Value possible. Minimum R-values must be installed to qualify for incentive:
 - **Wall** – install minimum of **R-24** ○ **Floor** – install minimum of **R-29** ○ **Attic** – install minimum of **R-48***(Minimum R-value installations reflect the addition of at least R-5 above 2003 IECC code for walls and R-10 above 2003 IECC code for attics and floors).*
- Insulation may be installed by the builder or contractor. Self-installers are eligible for incentives on materials only. **Contractor installations require invoice and proof of payment* to receive incentives. Work may be inspected.**

*For complete details about proof of payment requirements, please see the back of this form.

Keep a copy for your records. Mail the completed form within 90 days of purchase to:

Rocky Mountain Power - Home Energy Savings program 1407 W. North Temple, Salt Lake City, Utah 84116
 phone 1-800-942-0266 • fax 1-800-687-6176 • www.rockymountainpower.net/hes

How to receive your incentive:

1. Build a new home within Rocky Mountain service area on rate schedules 2 or 18. Purchase and install a qualified product or service. For questions about what products or services qualify, visit www.rockymountainpower.net/hes or call 1-800-942-0266.
2. Please complete all of the information requested on this form. Incomplete forms may be delayed or denied.
3. Review and sign the acceptance of terms. Make a copy for your records.
4. Mail completed form with all required documentation to:

**Rocky Mountain Power – Home Energy Savings program
1407 W. North Temple, Salt Lake City, Utah 84116**

Required documentation for insulation includes:

- Itemized receipt/contractor invoice that clearly indicates square footage for each area, insulation type and R-Values for insulation installed, itemized costs, and purchase and installation dates.
- Proof of payment (copy of canceled check, charge receipt or credit card statement).

Your incentive check will be issued within 45 days of receipt of your completed and approved incentive application.

Terms and conditions

Incentive availability

Incentives are available on a first-come, first-served basis according to the postmark date on the application. Please reference the program Web site at www.rockymountainpower.net/hes to determine the current status of incentive availability. All equipment must be new and have been purchased and installed prior to submitting an incentive application. It is required that equipment be purchased and installed on or after January 1, 2009. Applications must include all information requested. Failure to provide this information may result in the delay or denial of the incentive.

Qualifying builders

Builders who construct homes in the state of Wyoming in Rocky Mountain Power service area on rate schedules 2 or 18 qualify. Home must have an electric heating system, central air conditioner or heat pump serving 80 percent of the floor area (ducted unitary cooling equipment).

Qualifying equipment and services

Qualifying products and services may be found online at www.rockymountainpower.net/hes, or by calling 1-800-942-0266. New home incentives are for new homes only and are paid to the builder.

Application details

Rocky Mountain Power reserves the right to conduct random inspections to verify information provided on the application. If your application is selected for review, it will not be processed until the review is satisfactorily completed. Incentive qualifications and amounts are subject to change and termination at any time. Rocky Mountain Power customers should visit the program Web site at www.rockymountainpower.net/hes.

The builder hereby transfers to Rocky Mountain Power all "Environmental Attributes" attributable to the Qualifying Equipment or its operation. Environmental Attributes include any and all credits, benefits, emissions reductions, offsets and allowances, howsoever entitled, resulting from the avoidance of the emission of any substance to the air, soil or water at or by PacifiCorp generating facilities through reduced generation of energy or other savings or offsets on account of the Qualifying Equipment. Builder will not claim ownership of any Environmental Attributes. As long as the builder at the same time states the Qualifying Equipment was made possible with funding from Rocky Mountain Power, the builder may claim that it is facilitating the production of the Environmental Attributes attributable to the Qualifying Equipment.

Rocky Mountain Power issues incentives in the form of checks not utility bill credits. Rocky Mountain Power is not responsible if your dealer provides inaccurate information about the amount and/or conditions of the actual incentive and Rocky Mountain Power will not pay incentives for equipment that is mislabeled or misrepresented by dealers regarding incentive qualifications. Households receiving incentives under the Home Energy Savings program may not receive equipment purchase and installation incentives under other Rocky Mountain Power programs.

Incentive applications must be submitted within 90 days of completion of the new home.

Keep a copy for your records. Mail the completed form within 90 days of purchase to:
