

## Important Announcement

Rocky Mountain Power is modifying the scheduled launch of the Residential Heating and Cooling Instant Incentive program.

To ensure a seamless transition to the new Instant Incentive program, residential Central AC and Gas furnace with ECM incentives will continue to be processed using a post-purchase application between April 17 and June 16, 2017 which has been posted to the website.

During this transition period, residential customers who purchase qualifying HVAC equipment from contractors or distributors can continue to submit a post-purchase application through the channels listed on the application. Please use the appropriate version of the application based on equipment purchase date. Applications can be found [here](#).

Qualifying applications for residential Central AC and Gas furnaces with ECM purchased on or after April 17, 2017 will align with the new incentive levels below and will be paid directly to qualifying customers. Contractor incentives will no longer be offered.

Equipment Purchases	Customer Incentive
Central AC – Tier 1 ( ≥ 15 SEER)	\$125/unit
Central AC – Tier 2 ( ≥ 17 SEER)	\$200/unit
Central AC – Tier 3 ( ≥ 20 SEER)	\$300/unit
≥ 95% Gas Furnace w/ECM	\$150/unit

Applications for qualifying equipment purchased on or before June 16, 2017, must be submitted within 180 days of the purchase date.

Qualifying equipment purchased after June 16, 2017, will be paid through the instant incentive process at the point-of-purchase.
